English to the World – Teaching Reading Made Easy

A series for pre-service teachers, teachers, trainers and academic managers.

This series presents practical information that relates directly to daily classroom instruction. We encourage you to constantly evaluate your own teaching by incorporating your own experiences with external practice and knowledge.

Teachers want useful examples of teaching techniques that are consistent with accepted theoretical principles. Furthermore, teachers want useful ideas and demonstrations that have been proven successful in the classroom.

The English to the World Series recognises this need and has applied teaching techniques that are both practical and relevant to the real-life classroom. These teaching techniques are appropriate for students from elementary school through secondary and adult education programmes.

Be the best teacher you can be.
